

# Officers' Seminar 14 – 17 October 2007

On the evening of 14 October 2007, surrounded by the cool breeze of Siloso Beach – Sentosa, more than 50 officers and their families attended a welcome dinner which kicked off the start of the second Officers' Seminar for the year, held from 14 – 17 October at the Rasa Sentosa Resort, Singapore.

Throughout the seminar, the active interaction among the participants and speakers provided a good platform for informative knowledge sharing and an opportunity for them to discuss various onboard procedures and policies. The participants were provided with a good insight of the company's developmental strategies, future plans and challenges during the in-house presentations conducted on the first day. Queries raised by them during the course of the presentations were promptly clarified in detail.

In the days that ensued, delegates from various business entities within A.P. Moller – Maersk Group and external

speakers shared their views on the direction of growth of the organization and the Maritime industry.

This seminar's Team Building activities were conducted in an 'Amazing Race' style where all teams were given the opportunity to explore the island while tackling the checkpoints and obstacles they encountered in their routes. The importance of teamwork and safety was emphasized during these activities, thus enabling the participants to correlate such experiences with their shipboard assignments and implement the lessons learnt.

A 'Bowling Night' was organized on the second day for the participants and their families. All of them had a night of fun and enjoyment. Through these get-together events, the participants were able to build a good rapport with one another.

The seminar concluded with excellent feedback gathered from both the participants and speakers.
